

# The Ultimate Kings Cup

## YOU WILL NEED

- 4+ players
- Table and chairs (playing surface)
- Something to drink
- Something to shot
- A large cup which will be used as the “Kings Cup”

## BASIC RULES

- Oldest player goes first then to the left.
- The player picks up a card and follows the instructions.
- Play continues clockwise until the last Kings Card has been drawn.
- If you pick the last of 4 Kings cards, you must drink the contents of the Kings Cup and its game over, you win.
- If a card says drink this means the card drawer and anyone else involved with that cards instructions must drink for 1 second.
- If the card says to drink for more time, you must follow the instruction specific to that card.
- If you break the circle of cards you have to finish your drink.

## OPTIONAL HOUSE RULES

These option rules should be set before the game, they are additions to the basic rules.

- A player needs to posses a 7 to leave the table for example; a toilet break.
- When drawing a rule card, you can choose to either make or break a rule.
- Some play that when a new rule card is drawn that is the new rule, this is up to you however we feel having 4 rules played throughout the whole game is more fun and challenging. (Especially if someone plays no swearing or no first names!)
- You can add gender cards, choose that all males are to drink if its a 5 or 6 and for all females if it's a 4 or 6. Everyone from that gender drinks first, then do the action on the card.

## WARNINGS

- Should only be played if you're over the legal drinking age in your country.
- Always drink responsibly, Kings Cup is a game not an excuse to drink dangerously or be a dickhead.
- If you or someone you know is drinking because of the “rules” should not be drinking, you should always cut them off. Always look after your mates!
